

SATHYA PRABHU

Junior Linux System Administrator & Azure Cloud Engineer

Bangalore, Karnataka, India | sathyamunusamy11@gmail.com | 9962187539 | [LinkedIn](#)

PROFESSIONAL SUMMARY

A motivated Computer Science Engineering fresher with a strong foundation in core computing concepts. Possesses hands-on knowledge of Linux system administration and basic server operations. Currently building skills in cloud computing with practical exposure to Microsoft Azure services. Familiar with Azure Virtual Machines, networking concepts, storage, and identity management. Demonstrates strong problem-solving ability and eagerness to learn new technologies. Seeking an entry-level IT role to apply technical skills and grow as a cloud and system administration professional.

TECHNICAL SKILLS

LINUX:

- Experience with Operating Systems: RHEL, CentOS, Ubuntu, Alma Linux, Kali Linux.
- Hands-on experience with VMware Workstation for virtualization.
- Proficient in text editors such as Vi Editor.
- Knowledge of backup and recovery tools including Zip, Gzip, and TAR.
- Experience in package management using RPM, YUM, DNF, and APT.
- Configured and managed YUM repositories.
- Familiar with Logical Volume Management (LVM) for efficient storage and file system management.
- Experience working with file systems like EXT4 and XFS, including creation, resizing, and management.
- Experience with file sharing services such as NFS, AutoFS, SFTP, and Samba.
- Knowledge in configuring and managing servers like Apache Web Server, SMTP, and DNS.
- Proficient in remote access tools including SSH, PuTTY, and MobaXterm.
- Experience in scheduling tasks using Crontab.
- Experience in system troubleshooting, including performance monitoring (vmstat), disk utilization issues, SSH connectivity, and NFS-related problems.
- Basic knowledge of system patching, updates, and debugging using tools like strace for analyzing application issues.

CLOUD (MICROSOFT AZURE):

- Hands-on experience with Microsoft Azure, including deployment and management of Virtual Machines (Windows/Linux).
 - Strong understanding of Availability Sets and Availability Zones for high availability and fault tolerance.
 - Experience in creating and managing VM Snapshots for backup and recovery.
 - Knowledge of Azure Virtual Networks (VNet), subnetting, and secure network design.
 - Hands-on experience with Network Security Groups (NSG) for traffic filtering and security rules.
 - Worked with VNet Peering and NAT Gateway for secure and seamless connectivity.
 - Familiar with Azure Load Balancer for efficient traffic distribution and high availability.
 - Basic knowledge of Azure Application Gateway for Layer 7 routing and web traffic management.
 - Experience with Virtual Machine Scale Sets (VMSS) for auto-scaling applications.
 - Hands-on experience with Azure DNS and hosting basic web applications on Azure Virtual Machines.
 - Knowledge of Azure Storage Accounts and File Shares for efficient data storage and management.
 - Familiar with Azure Entra ID, Key Vault, Compute Gallery, and Azure CLI for identity management, security, image management, and automation.
-

INTERNSHIP

Cloud & Linux System Administrator Intern | V-Sphere Technologies | 4 Months

- Gained hands-on experience in Linux system administration and Microsoft Azure cloud services, including VM deployment and basic server management.
 - Configured and managed Linux servers, performed user management, file permissions, and basic troubleshooting.
 - Implemented Azure networking components such as Virtual Networks, NSG, and Load Balancer for secure and efficient connectivity.
 - Assisted in cloud resource management and automation using Azure Portal and Azure CLI, including monitoring and basic web hosting.
-

PROJECT

Secure Online Banking Application on Azure (Three-Tier Architecture)

- Developed a cloud-based banking application using Microsoft Azure with a three-tier architecture. Built frontend using Streamlit, backend APIs using FastAPI, and managed data with Azure SQL Database.
 - Implemented JWT authentication for secure user access and enabled features like fund transfer, transaction history, and admin audit logs.
 - Deployed application using Azure App Service, ensuring scalability and security.
-

EDUCATION

Bachelor of Engineering (B.E) – Computer Science and Engineering

Jayalakshmi Institute of Technology

2022 - 2026

CGPA: 8.3(7th Semester)

Higher Secondary Certificate (HSC)

Government Higher Secondary School, Pulikarai, Dharmapuri

2021 – 2022 | Percentage: 85%

Secondary School Leaving Certificate (SSLC)

Government Higher Secondary School, Pulikarai, Dharmapuri

2019 – 2020 | Percentage: 78%
